The 11th year of the Tenshou era(1583) one day in the middle of the night
a spanish ship went up in flames in the middle of the Inland Sea

The dairy written by
Father Florence was also thought to be

lost forever

Urakami Matazaemon, the chief of the navy, was in a panic atop the ship
It was thought that not even his daughter could be saved.....

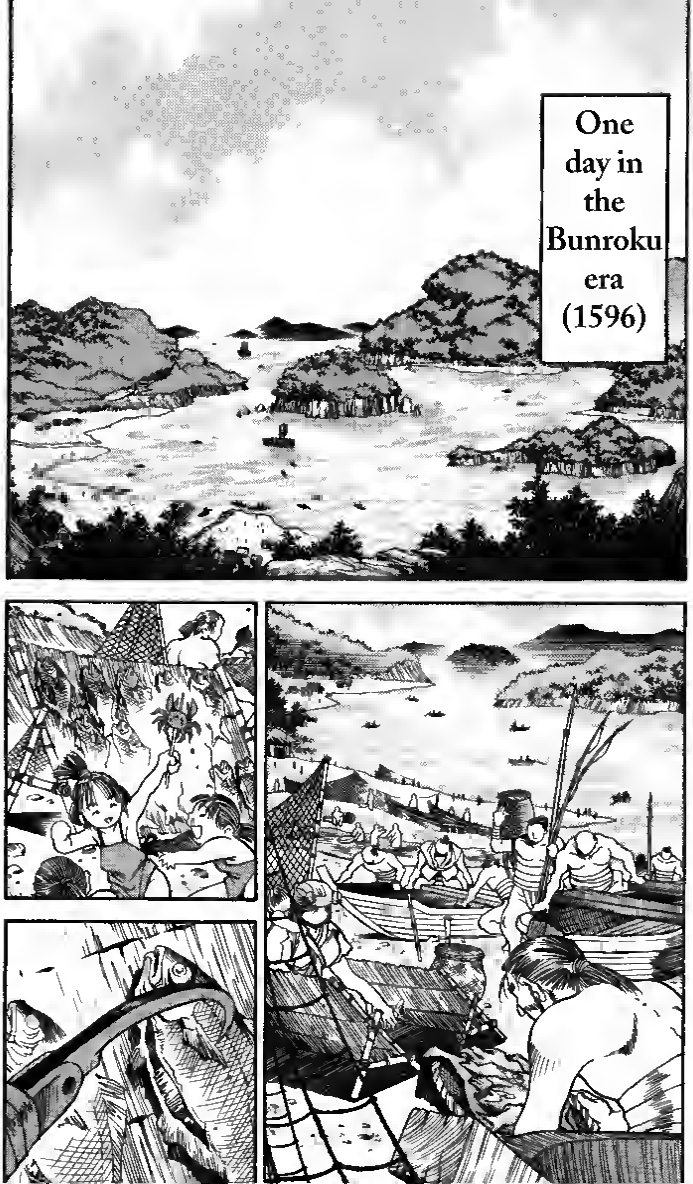
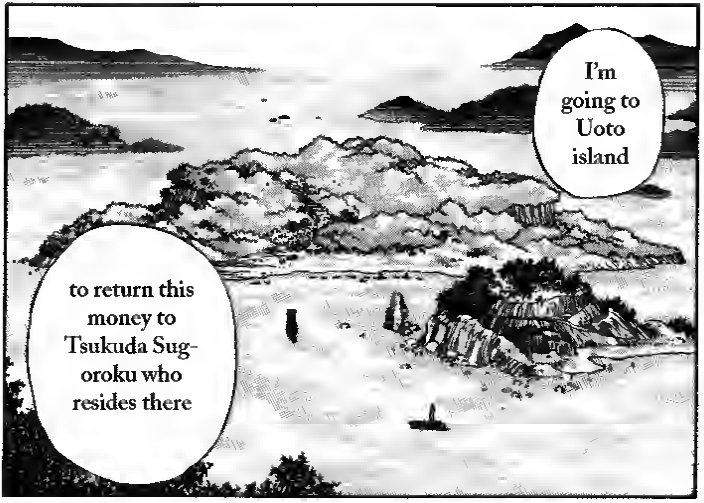
Kikuhime



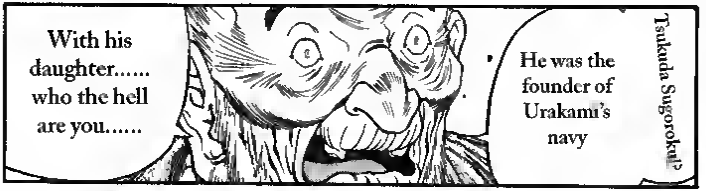
One day in the Bunroku era (1596)

Au~
theif
Wait~~

Hou! Aren't you a rich young man
It would definitely save his fleeting sanity
why not donate some to this feeble old man?
having too much money will ruin oneself
What would a youngin' like you want with that island!!
the only thing that island is good for is to count the stars on the beach
I want to go to that island
Do you have a boat?

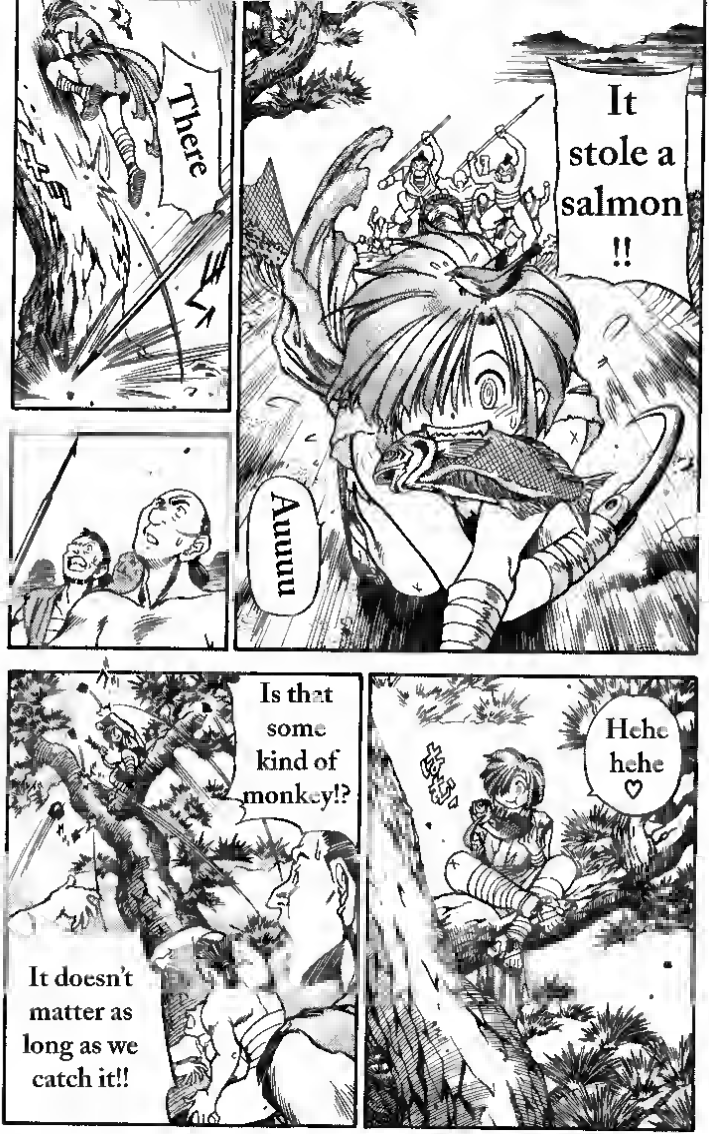


I'm going to Uoto island
to return this money to Tsukuda Sug-oroku who resides there

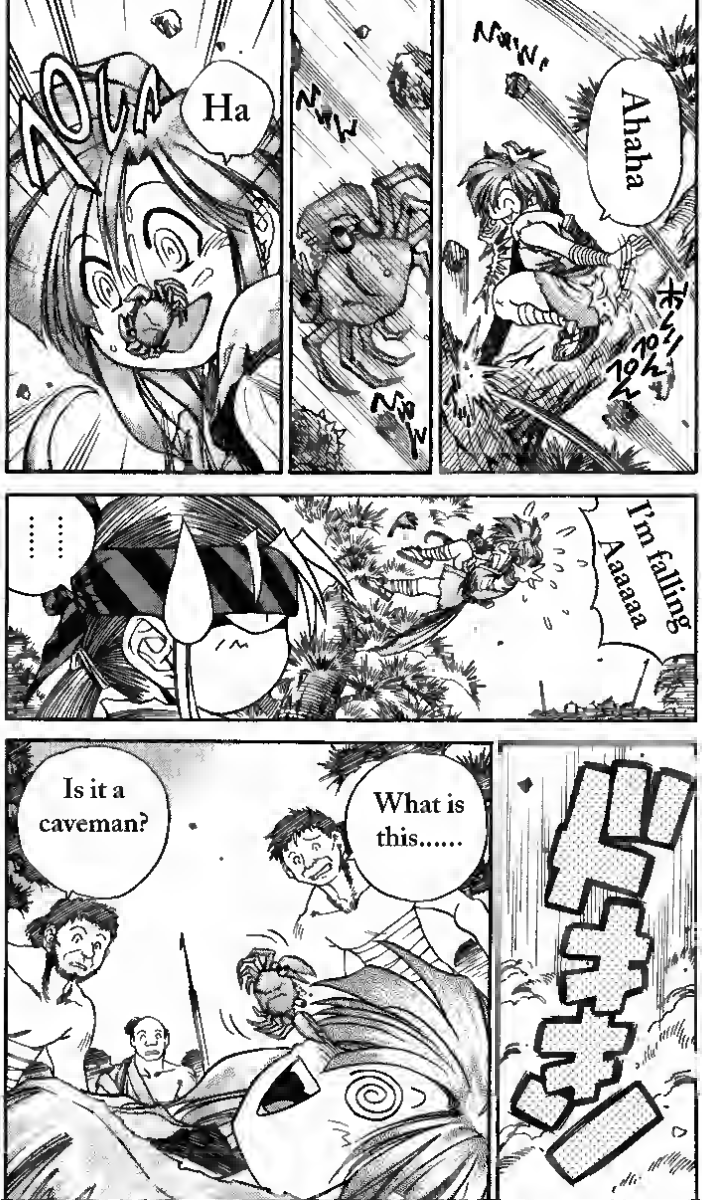


With his daughter..... who the hell are you.....
He was the founder of Urakami's navy
Tsukuda Sugoroku!?

Au~~~~~
Wai-t!! Thei-f!!



There
It stole a salmon !!
Aaaaa
Is that some kind of monkey!?
It doesn't matter as long as we catch it!!
Hehe hehe ♡



Ahaha
Ha
I'm falling
Aaaaaa
.....
What is this.....
Is it a caveman?

Let's make it regret they it stole from us!!
I don't really care let's just pay it back!!
Hello
just one second
and I ask you to accept this as out token of forgive-ness
I have silver
I would like to request for-giveness on her behalf
ペコ

はー!?
You fool, how you could you eat that
Now that that's taken care of.....
I- it's a demon!!
Monster!!
hee?

I give up
Hey!! People !!
Hiii
fuee fuee fuee happy, happy!!
why don't you youngin's have a seat
and enjoy the view from here!!

You just need to know a bit of wisdom on how to read 'em and you'll be fine

We just entered the complicated currents of the Inland Sea

Thanks, but are you sure you can make it, old man?

A fool who can't read the currents would waste his strenght in futility in the currents

It's a bit like life it itself

this is my first time ever coming across one

So, You're a Puppet Master

There are times when puppets are mistaken for living people
and others when they're mistaken for demons of this world
You seemed to have great skills indeed
hmph they're worthless
when making one of that sort
and manipulating with great splendor it then becomes a dark art
They're nothing

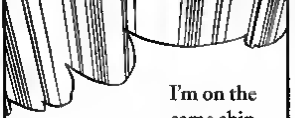
!
Next time raise a flag to identify your boat!!
Gonjū of Inga beach?
My apologies, Itsukuda-sama
What business do you have here?
You are approaching the island of the Urakami house

a guest for my father?
I have a guest for your father so.....
I came to give him peace of mind
This is Tsukuda Sugoroku-sama's son
Tsukuda Chiyomaru
He's become the head of the island's body-guards at the young age of fifteen
He is a man of the sea with an intimate knowledge of these waters
A man .....
What business do you have with my father?
.....
I can only tell the person himself
.....

But someone within this vicinity is planning to attack his daughter
Fine
Is this amusing to you!! Are you trying to start a foolish fight with me!?
there's no need to worry
It would be better if she didn't enter the island
Aaa

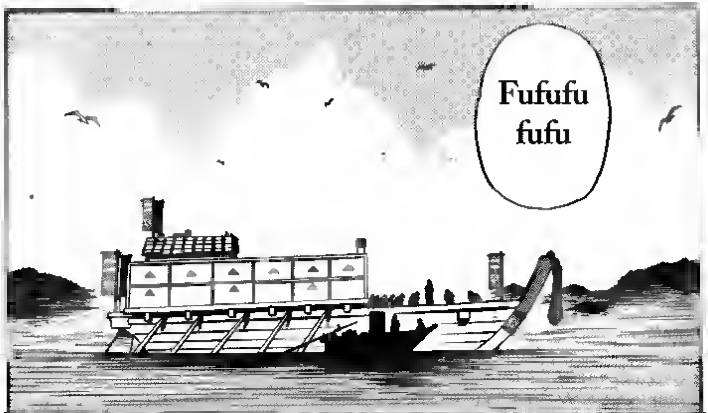
That's enough, Chiyomaru
Kurusu-sama

It's fine



I'm on the same ship with the Urakami house's chief, Kurusu-sama
Please forgive my rudeness from earlier!!

I hope I can garuntee your safety though
if you want to go to the island, then we'll go



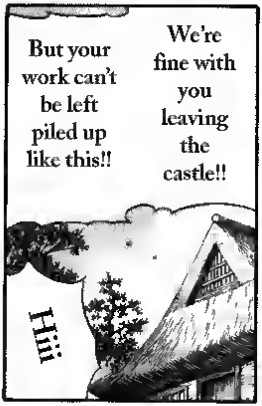
Fufufu fufu

Lower Harima
Inuyama city
Why didn't I hear about this!!
Haa..... He went with Otsuru 4 days ago.....
The Uoto island on the Inland Sea!?
What is that fool up to now!!
How dare he leave the beautiful me behind

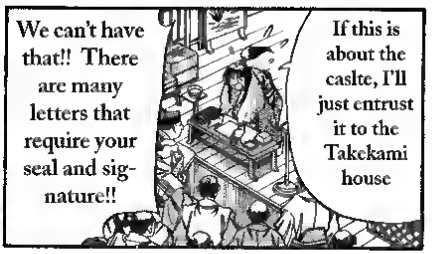
It was 7 days ago.....
I accidently drew near Genzou's cabin while I was picking edible plants
Please give this to Tsujimura Genzou for me.
Haa?
Thank you
Haa .....
It was a request from Tsukuda Sugoroku to make a puppet of his son, Tsukuda Chiyomaru
as compensation he gave him some silver

Don't say anything to Kiku-hime
alright.....
I'm leaving to return the money and refuse the job
Genzou has no reason to make a puppet of some samurai's son
That's what he was saying
.....
so
Yes, you found me
Us together on the island with the blue sea behind us, it's perfect~!!
Kiss here
Nffuffu
In other words
If I run after him, he'll be there waiting for me

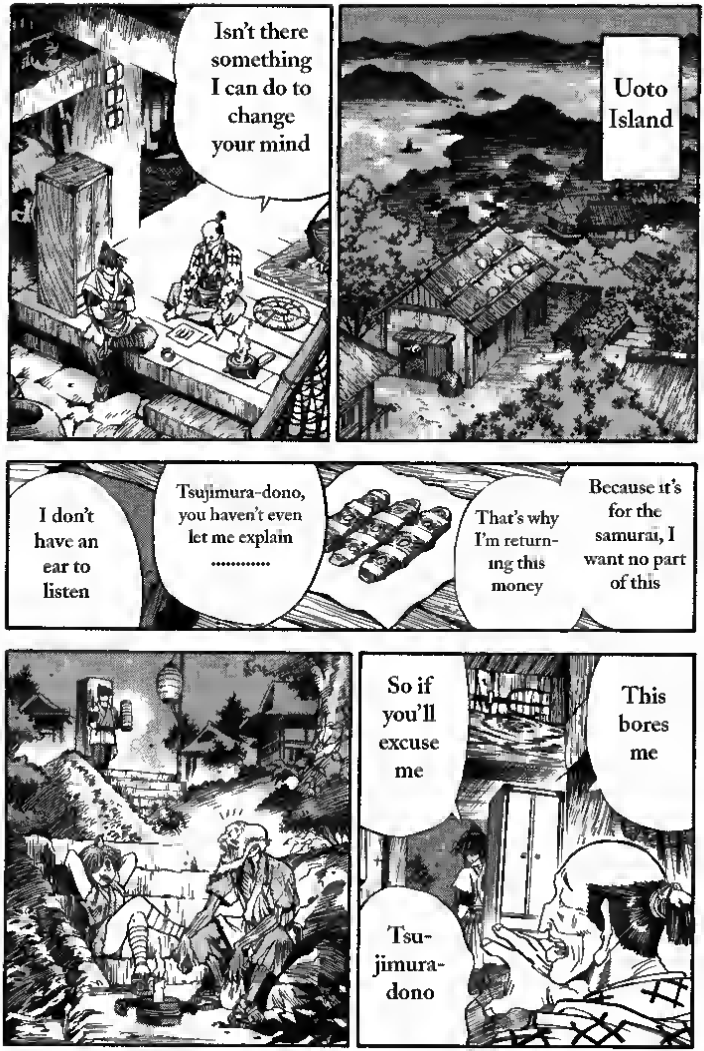
We can't have that!!!
It's decided!! Get me my horse!! I'm going to Uoto Island



But your work can't be left piled up like this!!
We're fine with you leaving the castle!!
Hiii

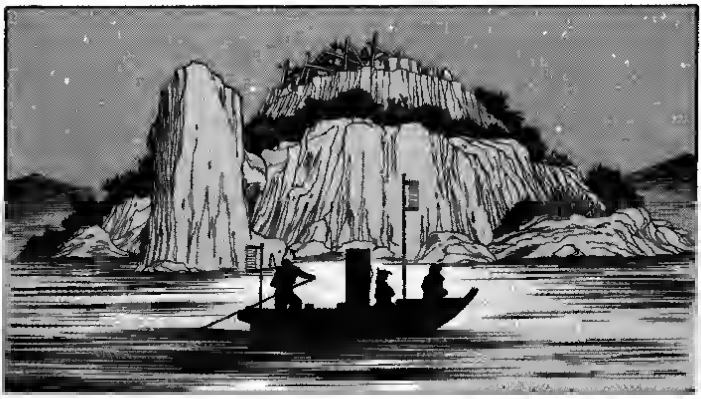


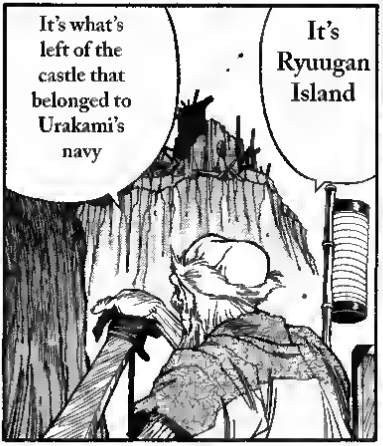
We can't have that!! There are many letters that require your seal and signature!!
If this is about the caslte, I'll just entrust it to the Takekami house



Isn't there something I can do to change your mind
Uoto Island
I don't have an ear to listen
Tsujimura-dono, you haven't even let me explain .....
That's why I'm returning this money
Because it's for the samurai, I want no part of this
So if you'll excuse me
This bores me
Tsujimura-dono

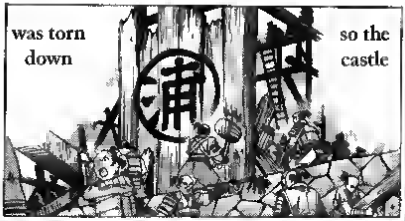
It might be a good thing if kiku-hime knows about this
she may have a banquet ready
I'm sorry but could you return us back to the main land?
Whatever you want, you're the one payin'
That was rather quick. Is everything okay
since these islands are quite dangerous nowadays
It's probably better that we left early
Take a look over there
Did something happen?



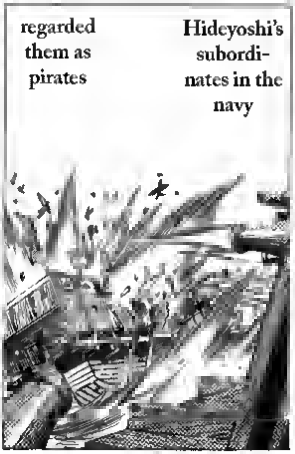


It's what's left of the castle that belonged to Urakami's navy
It's Ryuugan Island

So, Toyotomi Hideyoshi gave the command to ban all pirates.....
Eight years ago they were forced out in order to seize the control over the traffic here

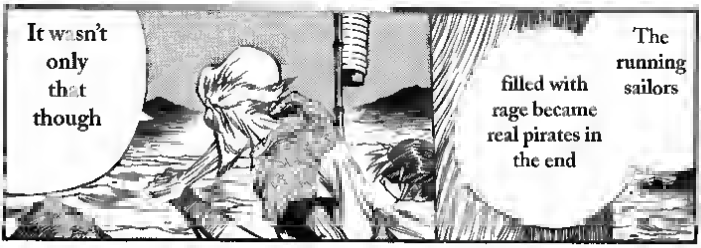


was torn down
so the castle



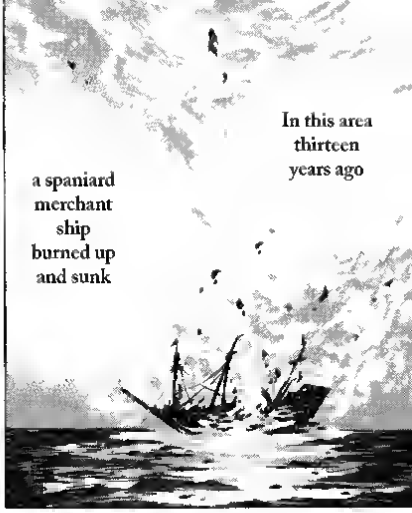
regarded them as pirates
Hideyoshi's subordinates in the navy

Many of the sailors ran off in escape

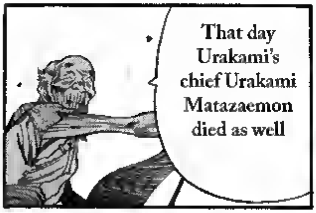


It wasn't only that though
filled with rage became real pirates in the end
The running sailors

?



In this area thirteen years ago
a spaniard merchant ship burned up and sunk

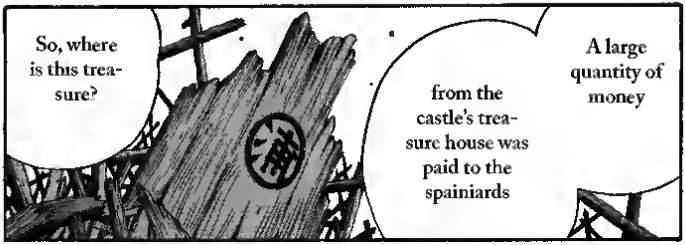


That day Urakami's chief Urakami Matazaemon died as well

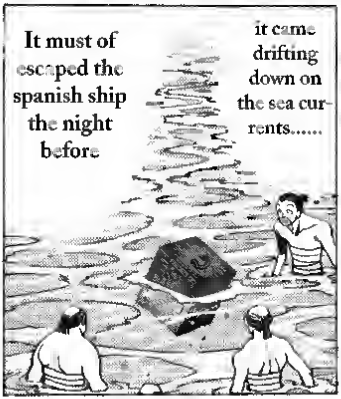
It was said that that ship had vasts amounts of treasure
Matazaemon great amounts of money to captain of that ship

It's not in the castle's warehouse or anywhere near it but.....

The treasure's inside the sunken ship?
No!! It wasn't anything like that

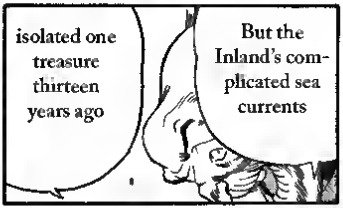


So, where is this treasure?
A large quantity of money
from the castle's treasure house was paid to the spainiards

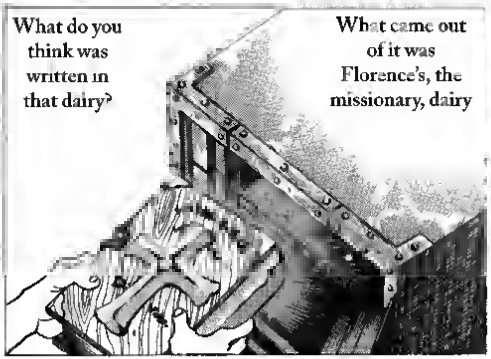


It must of escaped the spanish ship the night before
it came drifting down on the sea currents.....

That's nothing but pirat folklore



isolated one treasure thirteen years ago
But the Inland's complicated sea currents



What do you think was written in that dairy?
What came out of it was Florence's, the missionary, dairy

or is it completely gossip
So, where's the treasure.....?
That dairy exits, and someone may have it
Yeah
Genzou
to stir something up with that gossip
Or maybe the pirates are aiming
Why is that, youngin'?
but it seems some how or other I always get involved in these troubling events
I have no interest in trivial matters sucha s treasure.....

Ready men!!
The runt Tsukuda were you-planning to join these people in death!!

If you want this, you'll have to come here and get it
This is the dairy of Florence which holds the record of what happened thirteen years ago
Do you have anything to say except silence
I am Kurojishi what are you planning to do now
Who the hell are you!?
The thing of gossip
What's written inside!?

trans note Kurojishi's kanji mean black lion kid

Young chief!!
You mustn't be fooled by the words of these pirates!!

Stand back!! We're going to raid their ship
Now

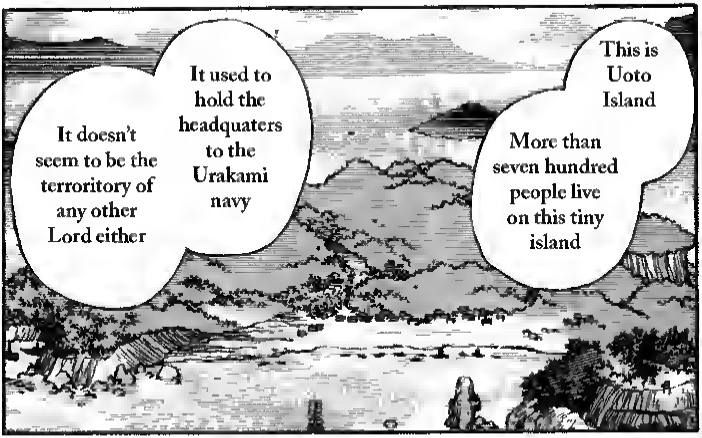
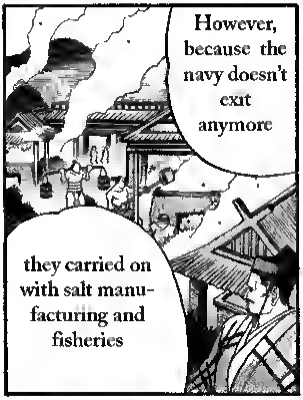
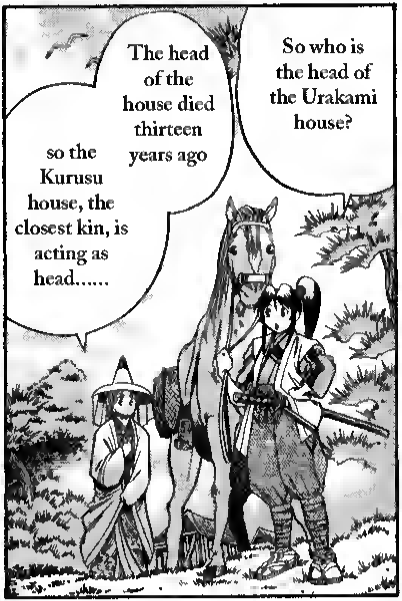
That foolish CHILD~!!



This is Uoto Island
More than seven hundred people live on this tiny island
It used to hold the headquaters to the Urakami navy
It doesn't seem to be the terroritory of any other Lord either



However, because the navy doesn't exit anymore
they carried on with salt manufacturing and fisheries



So who is the head of the Urakami house?
The head of the house died thirteen years ago
so the Kurusu house, the closest kin, is acting as head.....

Didn't Toyotomi Hideyoshi give them the right to self government

Sadeyoshi
The head now is Maria Kurusu. She's part portuguese

giving her a larger chest.....
It's always one thing and another with that stupid man
Gee
g-gossip .....

Th-That's .....
The island has become a dangerous place to reside
The sailors became angry and violent pirates, it seems
It's acting like an agent to draw people in.....
It's a rumor that the pirates hide themselves there.....
That's where the Urakami's navy's castle was
What's that small island next to Uoto island?
That's Ryuugan island

I'm sorry, I didn't mean to.....
Yeah yeah
Uoto and Ryuugan island
I'm not saying they're the best looking our vacation
Even so Utou and Ryuugan island

Something bit me in the ocean.....

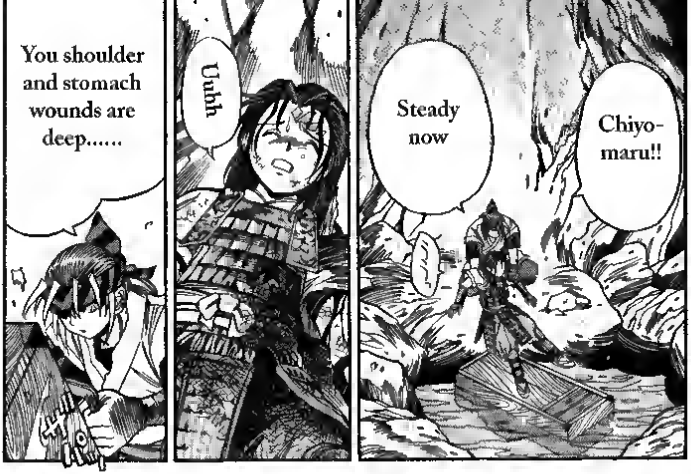
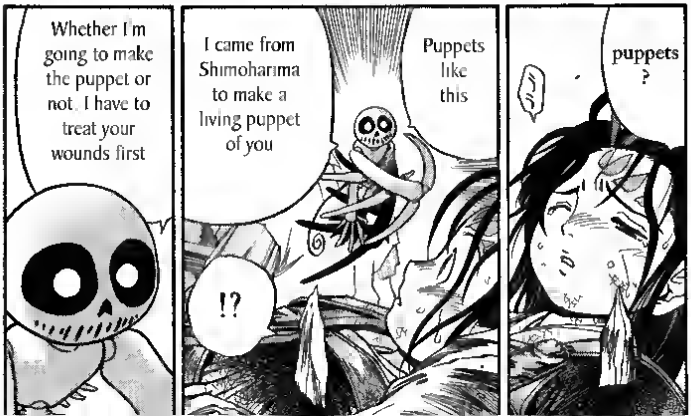
チャプン
チャプン



You shoulder and stomach wounds are deep.....
Uuhh
Steady now
Chiyo-maru!!

I make a living creating boring puppets
I'm Tsujimura Genzou
Y-you're that..... guest .....?



Whether I'm going to make the puppet or not I have to treat your wounds first
I came from Shimoharima to make a living puppet of you
!?
Puppets like this
puppets ?

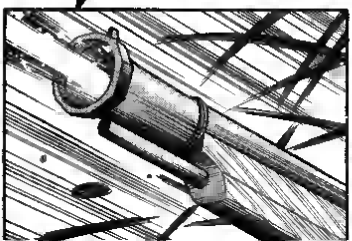
You're reserved and patient
not very man like
Stop!! If you treat me, I'll.....
Don't worry about it
Don't be stupid
I know you're lying
There's no escap- ing it
So don't be stupid
Y- you think so?
If you don't stop this
S- stop!! You don't have to do this!!
Sto.....
Please

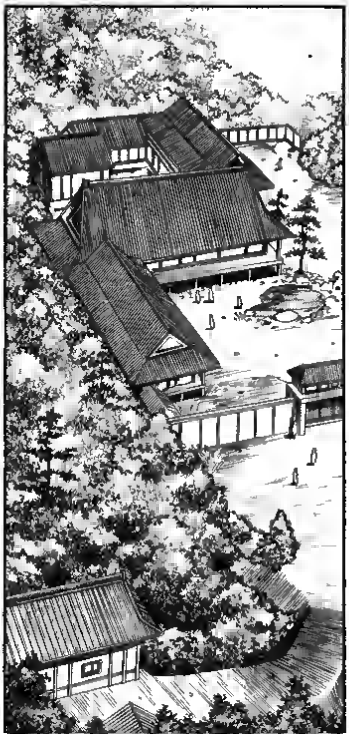
I'm embarrassed
Don't
Please don't look
Don't this is embarrassing
This is indecent.....
So beautiful

Why would you want to hide such a beautiful thing?
I don't get it
Hiuuh

Why .....

Uoto
island



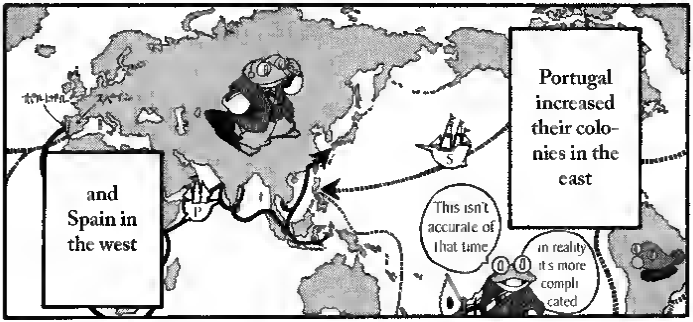


Yes
Next

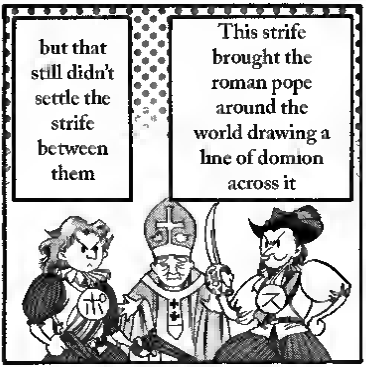
Our failures are inexcusable .....
How long do I have to wait for something with decent accurracy!!
Hurry up and make me a decent arquebus!!
You should be devoting your lives to this!!
Yes

I'm gonna need large quantities of gunpowder
When the time comes
Was that some of your artillery?
Wonderful, just like a ruler, Maria Kurusu
Once the treasure is found
If you give us the money, you can get as much as you like from them
We, suporters of the Society of Jesus, are Portuguese merchants

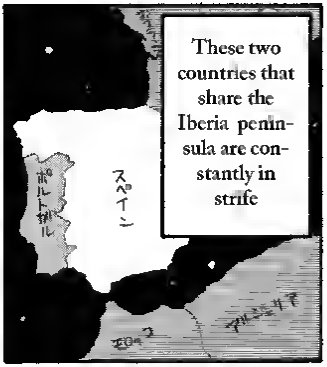
In those days the world
had two countries with great strength



and Spain in the west
Portugal increased their colonies in the east
This isn't accurate of that time
in reality it's more complicated

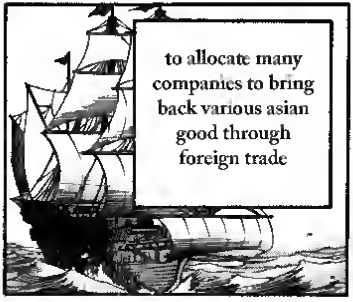


but that still didn't settle the strife between them
This strife brought the roman pope around the world drawing a line of domion across it

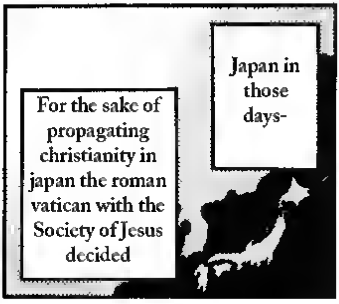


These two countries that share the Iberia peninsula are constantly in strife
スペイン

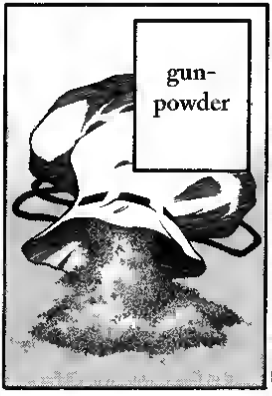
The Portuguese system exists as the Society of Jesus
and the Spainiards system is the Society of Francis
Foreign trade and colonial rule have come to revolve around the propagation of christianity



to allocate many companies to bring back various asian good through foreign trade

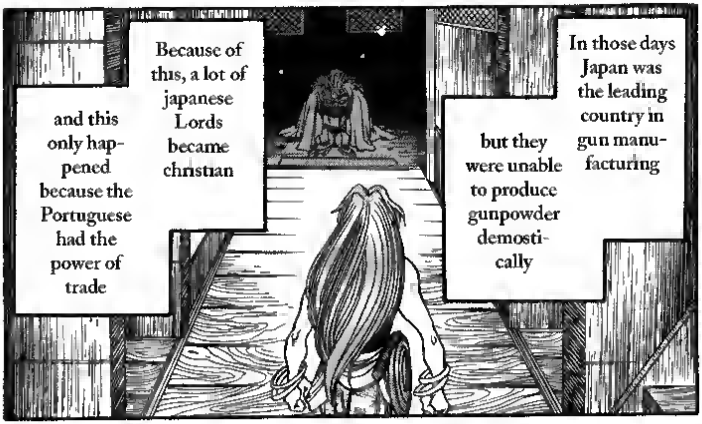


Japan in those days-
For the sake of propagating christianity in japan the roman vatican with the Society of Jesus decided



gun-powder

And what did the Japanese desire from them?



In those days Japan was the leading country in gun manufacturing
but they were unable to produce gunpowder demostically
Because of this, a lot of japanese Lords became christian
and this only happened because the Portuguese had the power of trade

Did you find those suspicious people yet?
No, I have failed you. Just give me a little more time.....

How do you know they're not spies from the Toyotomi or the Tokugawa house?

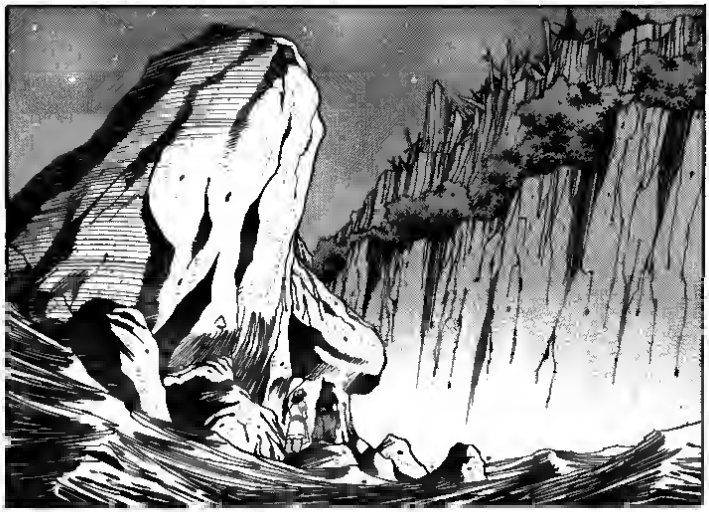
Puppet master!?
Yes
It seems Tsukuda Sugoroku summoned him, a puppet master, from Shimoharima
B-but!!
That dairy is only the second essential thing
Please forgive me!!
futhermore, Florence's dairy.....
The dairy is of no concern to me
I still haven't .....
Bring Sugoroku here!!
What about Chiyomaru?
Start searching!!
and that she was entrusted with the treasure!!
I know Uragami Matazaemon's daughter, Kyone, survived!!

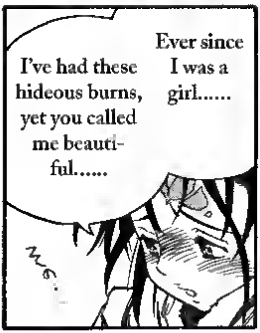
All that remains is to find Kyone!!

trans note - the second "I" was the feminine version

Uh.....
Ah
Chiyomaru, do you know where we are?
Anyway, we need to find a way out of here
Here's the exit.....
W- we're inside Tengu rock
Eh?
Tengu: long nosed goblin

This is.....





Ever since I was a girl.....
I've had these hideous burns, yet you called me beautiful.....

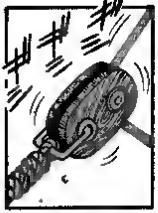
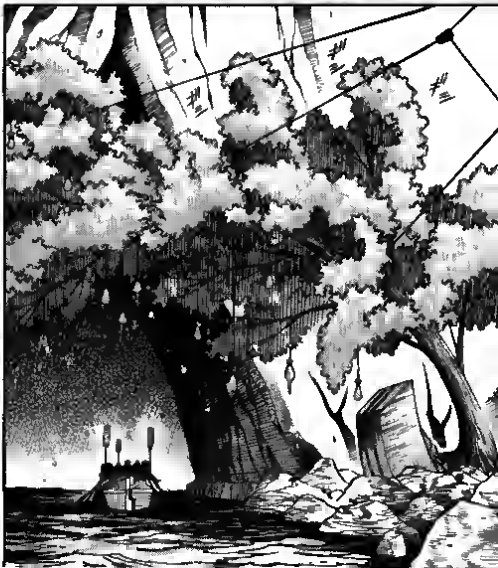
Dad.....

Did you hear something?
.....
Sorry, sir, I didn't hear anything.....
Stay on guard
That one who manipulates the dark arts is probably loitering around here
You're going to tell me everything you know
Why did you summon such a person
Hesitation will get you stuck inside his trap
If you spot him, kill 'em

and I don't want any trouble from you





I do have some intrest in your little secret
Uuum I.....
If we were to get discovered, you'd have no way to rescue your father
Please try to keep quite Chiyomaru-dono
since your wounds will reopen
Swimming after them isn't an option
how do we pursue them from here
The problem is
What are you up to?

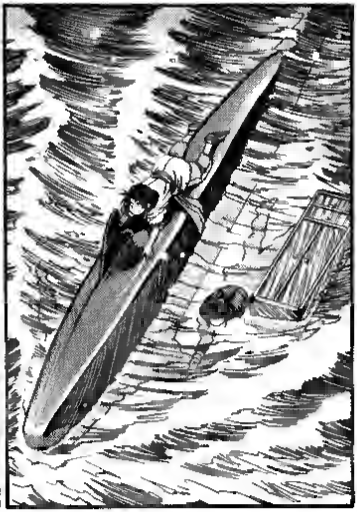
Kohayam-aru

Th-
This thing!!

You're friends with something like this.....
Kya
And this is our best option
He's my only close friend that knows my secret
The truth is
Kohayamaru brought us inside the Tengu rock
It probably thought this was the safest place for me

He's a smart whale
He's a good asset to bring along too
and brought us to a place that no one else knows about
He intently went to the bottom of the sea
A whale? This small?
Yeah, he's definitely a whale*
He's doubled in size since I was a kid though
That fat whale is quite the lady killer
It's like I summoned my own personal foot soldier

*False Killer Whale - Classified in the dolphin section but as a whale. It's name in those times is unkown



What the?

What is this?
What is that thing?

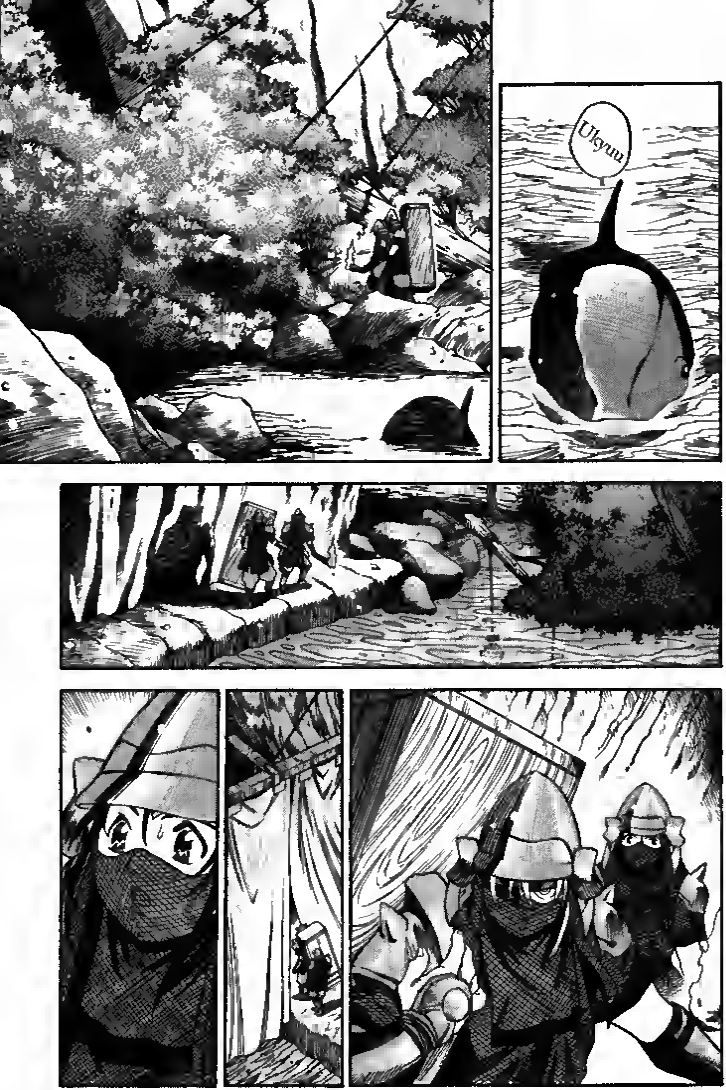
Wha!?
Ah?

We stood out too much so.....
Thanks to this little guy we're here

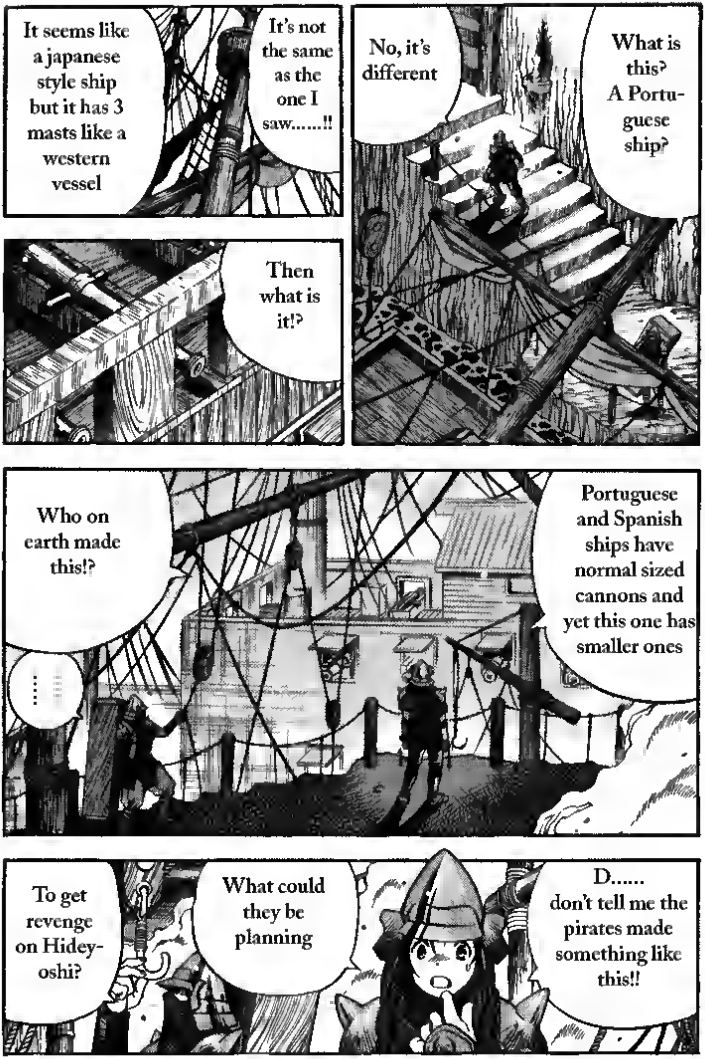
I didn't even know they were gaurding this island till now

How did they come to be on this island?

Sorry for the inconveince
If you do it too, we'll be best friends.....
Since whales don't have arms
and I don't want to get the dirty water on me, I'd be delighted if you could carry me accross
Let me go, you stupid whale!
Let's play

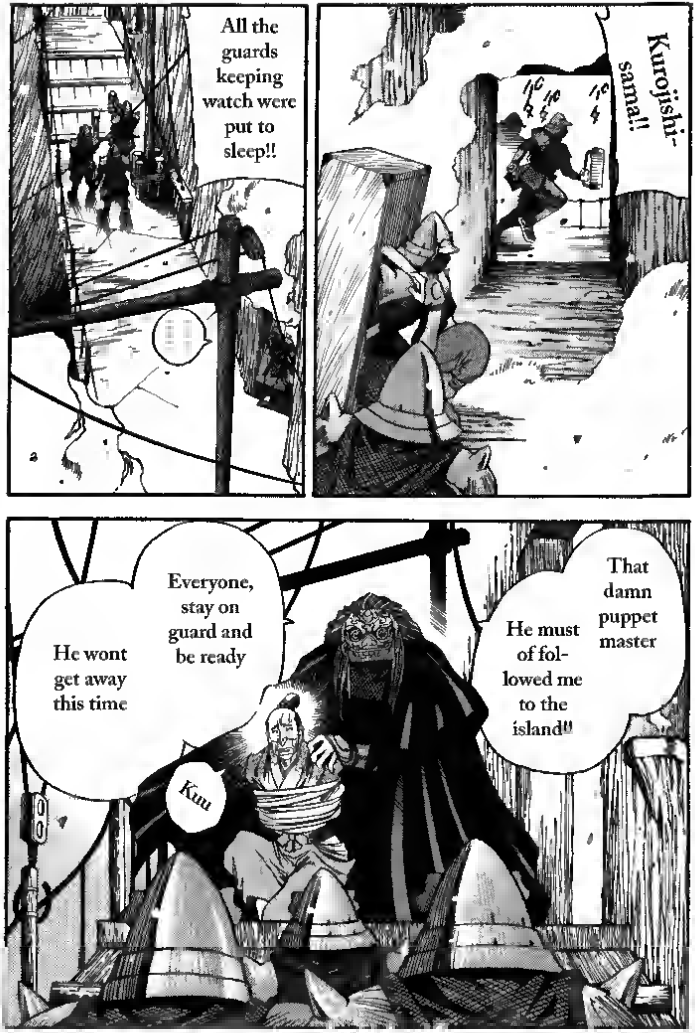


Ulgyun



It seems like a japanese style ship but it has 3 masts like a western vessel
It's not the same as the one I saw.....!!
No, it's different
What is this? A Portuguese ship?
Then what is it!?
Who on earth made this!?
.....
Portuguese and Spanish ships have normal sized cannons and yet this one has smaller ones
To get revenge on Hideyoshi?
What could they be planning
D..... don't tell me the pirates made something like this!!

So that's why they want the treasure.....
Even pirates are incapable of such outrageous things like that!!
Look!! There's people stepping on bellows
They're casting iron for the cannons
All of them are casting their strength into the iron too
Huh?
Sshh
All these women were abducted by the pirates
Ohisa, Osono, Ofumi.....
.....



All the guards keeping watch were put to sleep!!
Kurojishi-sama!!
That damn puppet master
He must of followed me to the island!!
Everyone, stay on guard and be ready
He wont get away this time
Kuu

Hows the investigation of Tsukuda Sugoroku's home going?
That's .....
Yes, sir
Is there anything else, Kuroji-shi-sama
!?
Please take a look yourself, sir!!

Kyone's Cross!!
This was found along with Florence's diary-
Yes
?
!!
!!
and we found this atop the ceiling post.....
We searched every where inside his home
Gun
Fool!! Why did you have this inside your home!?

Kuk kukku
I... don't know!! I know nothing.....
!?
You're still being fooled by what happened thirteen years ago!!
Is that so!! You really don't know anything!!

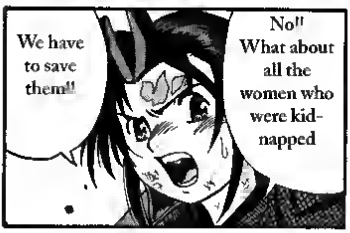
There's probably guards up here too
It's no use, all the exits are being shut
The only thing left is to find a loophole somewhere
There probably isn't a lot up there
I can try to decieve them

It doesn't matter, lets go!! We can get to the beach from here!!
A trap .....
or it's.....

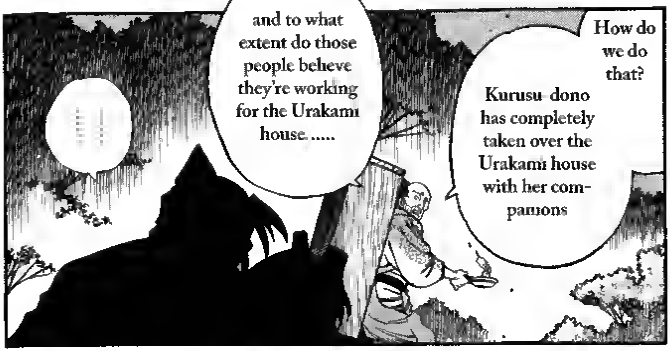
We can summon Kohayamaru on this side
so we should head towards Inga beach
But
Kohayamaru was injured, it can't swim like that

We can then ride the boat on the current to our escape

Night will dawn in a little while
and a fisherman of Inga beach should come out



No!! What about all the women who were kidnapped
We have to save them!!



and to what extent do those people believe they're working for the Urakami house.....
How do we do that?
Kurusu-dono has completely taken over the Urakami house with her companions

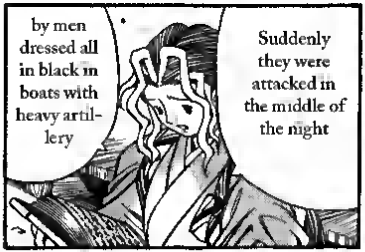
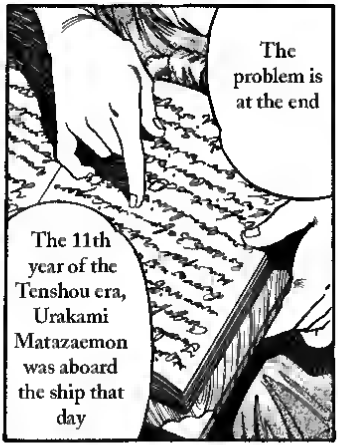
So
This is a report of his actions of religous propagation confronting the Philippines. It may or may not have information written down on Toyotomi Hideyoshi's invasion
Florence's Diary-

*Spain's king, Philip II, named the islands after him. Of course it was in Spain's possession

Hoou
He's not only going after China and Korea
but he's also aiming at the Philippines?
Yeah, and India, Portugal, and Spain
that stupid monkey!



Suddenly they were attacked in the middle of the night
by men dressed all in black in boats with heavy artillery



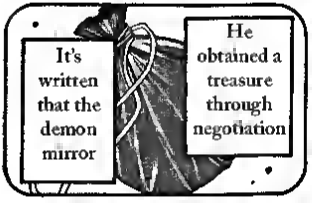
The problem is at the end
The 11th year of the Tenshou era, Urakami Matazaemon was aboard the ship that day

Kuroji-shi?

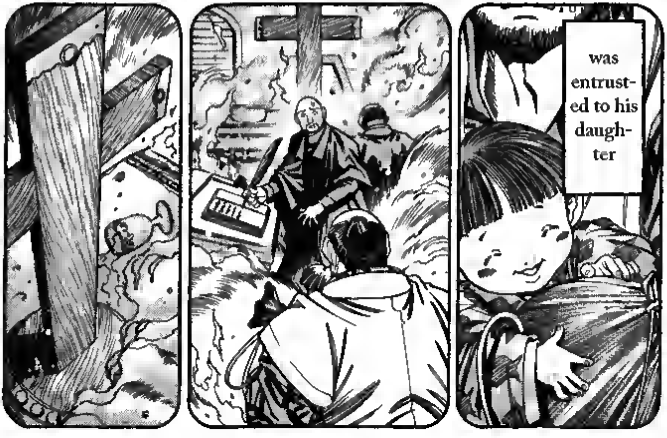
they started a fire out of anger because there was no gold or silver
After they took all the silk, carpets, and other goods

But Urakami Matazaemon thought of something

In an instant the fire consumed the whole ship
and the people atop it had no way of escape



It's written that the demon mirror
He obtained a treasure through negotiation



was entrusted to his daughter

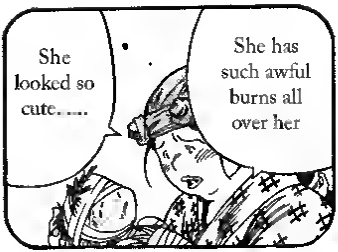
then he aimed her at the wall of flames and threw her into the ocean
He then fastened her to Florence's Cross

Can the two year old child survive atop the sea?]
She'll be lucky if the theives don't find her
[Urakami's daughter was tossed into the wall of fire?
[God!! Please have pity on this child
and bless her.....]
No, Urakami Matazae-mon was sure
But there's no way someone could survive.....
Was Matazae-mon taming a small whale?
that Kohayamaru would save Kyone!!

The boss thought he was extremely cute
Kohayamaru was an infant that strayed from the herd injured
What you speak of is the truth, Tsujimura-dono
Ooh Tsukada-sama is awake
Yes
so please keep watch of Kyone and Kohayamaru if anything happens to me
There will be civil unrest in the navy
But that day-
The chief is being attack—
Oh!! What is that!?

Hurry!!
Hurry!!
Hurry
!!
Everyone
to the
boats!!
Save the
chief!!
Hurry
That's

That's !!
Sug-oroku!!
Oi!! Sugoroku, where are you going!!
Sug-oroku !!
*Gyaaa Gyaaaaa
Kyone-sama
Ki-

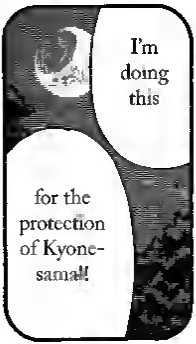


She looked so cute.....
She has such awful burns all over her

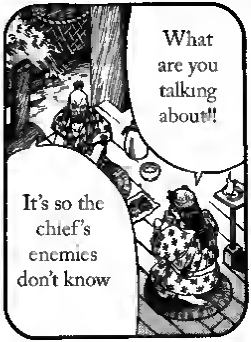
I took Kyone-sama into my home
Without anyone knowing

.....
So what are you going to do!!

He is my son Chiyomaru
This child is not a girl

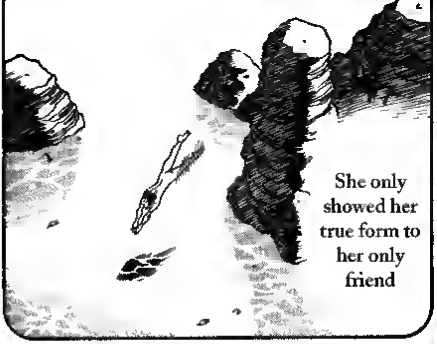


I'm doing this
for the protection of Kyone-sama!!

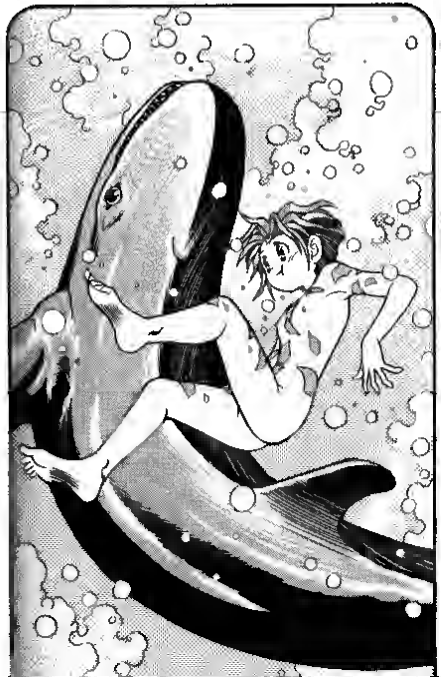


What are you talking about!!
It's so the chief's enemies don't know

She wasn't being targeted by anyone
and the days would go by in peace
At first it was a great idea
But .....
For fear of her secret leaking out
Chiyomaru became isolated and alone
At first glance she seemed wild and rude
but that was only her outside appearance
The lies would pile up inside her
and she was never able to speak her true feelings about it either



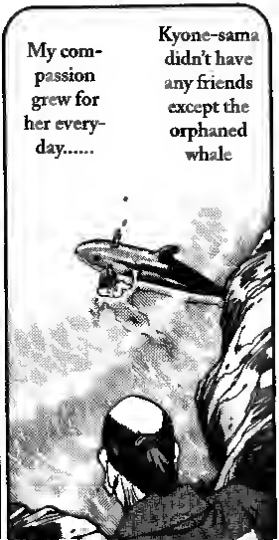
She only showed her true form to her only friend



She was all alone

Kohayamaru

I've decieved everyone in the area long enough
Kyone-sama turns 15 this year
I can't let this go on anymore



Kyone-sama didn't have any friends except the orphaned whale
My compassion grew for her everyday.....

Chiyomaru will die
and will become the adopted daughter she truly was.....

to fake her death in front of everyone
Because of this you asked me to make a living puppet of Chiyomaru
and if use the puppet master's abilities, then they'll continue to attack us!!
Since the discovery of Florence's diary, the pirates activities have started up again
At first I thought having a fake funeral was a good idea.....

There's nothing more we can do

But

Kurusu-sama is the chief of the pirates that caught Kyone

I don't know

The demon mirror has the location of the treasure on it?

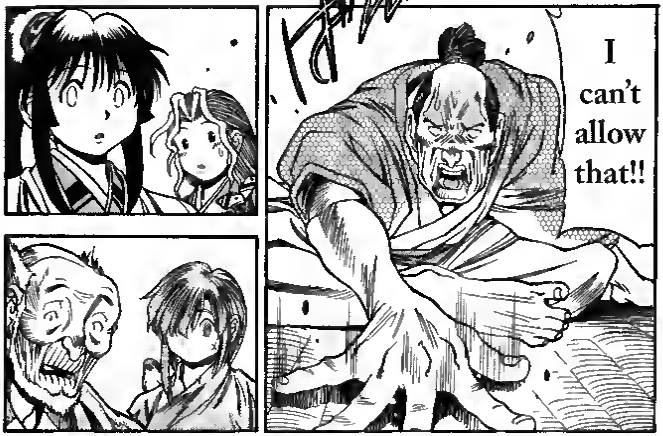
Do you think Toyotomi Hideyoshi would come out to help deal with the pirates?

You'd think they'd believe us?

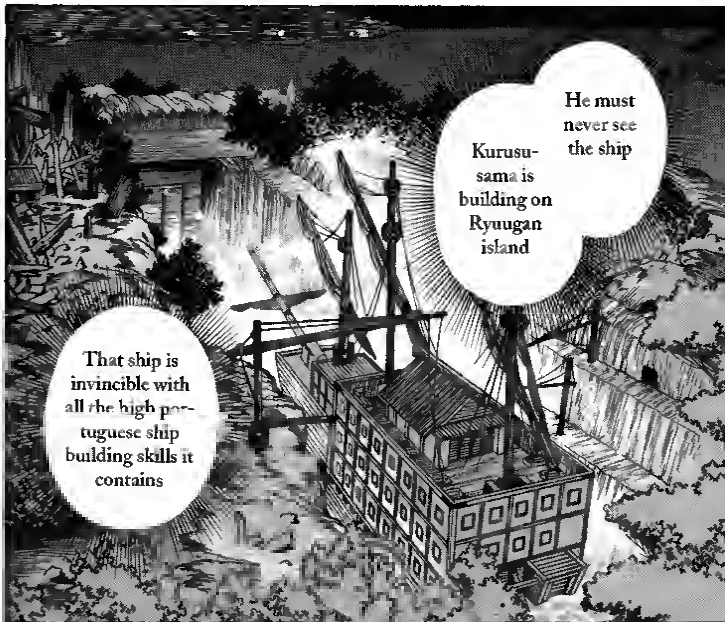
Have you told the pirates that we don't know where it is?

I burned everything even the kimono

the only thing that's left is her.....



I can't allow that!!



He must never see the ship
Kurusu-sama is building on Ryuugan island
That ship is invincible with all the high portuguese ship building skills it contains

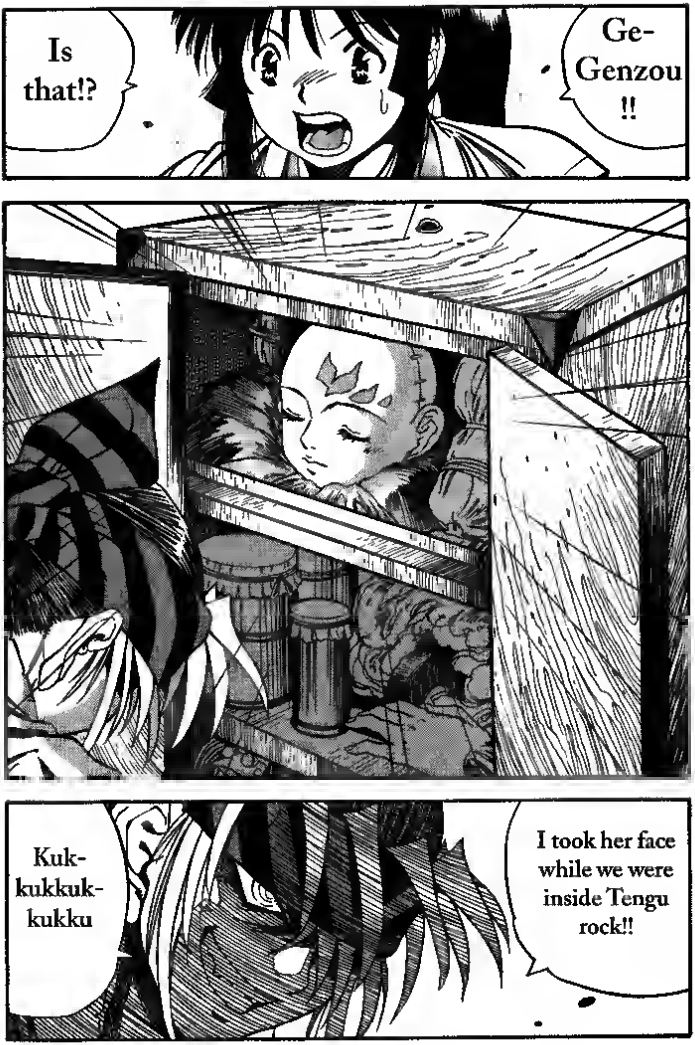
There are roughly 36 of 'em on board that ship!!
british cannons you could destroy the invincible spanish fleet
And with that ship's

Every innocent person in the world would get smeared with blood!!
A freasome thing like that should never be handed over to Hideyoshi!!

*These cannons are able to shoot the cannon balls further than a normal one at a greater distance, where as a normal one shoots it at a smaller distance. Trans note - these cannons name was Karuvaran in japanese, sorry I couldn't find the english equivalent

And how do you intend to do that
From here on, I will handle it by myself.....
Head towards Ryuugan island
and blow up that ship by setting fire to it's powder magazine
No!! What about Chiyo-maru!?
There's nothing I can do about that
We weren't father and daughter by blood.....
F-father and daughter .....

Uh
Uuuh
Genzou
.....
Genzou?
!?
Kukkuk
kukkuk
kukku



Is that!?
Ge-Genzou !!
Kuk-kukkuk-kukku
I took her face while we were inside Tengu rock!!

The demon mirror!!
Y-Yes
Kagari-dono!! Hurry up and have everything prepared for me!!
!
I'm confident you can get them across the water
We're going to save the captured women
Yes
Jii-san!!
As you wish
